

Natural Resources Conservation Service

Application Ranking Summary

BBT Cropland – Dryland

Program:	Ranking Date:	Application Number:
Ranking Tool: BBT Cropland – Dryland		Applicant:
Final Ranking Score:		Address:
Planner:		Telephone:
Farm Location:		

National Priorities Addressed

Issue Questions	Responses
Clean and Abundant Water: Water Quality - Will the proposed project assist the producer to:	
1. a. Meet regulatory requirements relating to animal feeding operations, or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
1. b. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a designated impaired water body?	Yes <input type="radio"/> or No <input type="radio"/>
1. c. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a water body?	Yes <input type="radio"/> or No <input type="radio"/>
Clean and Abundant Water: Water Conservation - Will the proposed project assist the producer to:	
2. a. Increase groundwater recharge in identified groundwater depletion areas (http://water.usgs.gov/ogw/rasa/html/TOC.html)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Conserve water from irrigation system improvements and result in estimated water savings of at least 5% and saved water will be available for other beneficial uses?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Conserve water in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
Clean Air: Treatment of Air Quality from Agricultural Sources - Will the proposed project assist the producer to:	
3. a. Meet regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Reduce green house gases such as methane, nitrous oxide, and volatile organic compounds (VOC)?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Increase carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
High Quality, Productive Soils Erosion Reduction - Will the proposed project assist the producer to:	
4. a. Reduce erosion to tolerable limits (Soil "T")?	Yes <input type="radio"/> or No <input type="radio"/>
Healthy Plant and Animal Communities Wildlife Habitat Conservation - Will the proposed project assist the producer to:	
5. a. Benefit threatened and endangered, at-risk, candidate, or species of concern as identified in a State wildlife plan?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Retain wildlife and plant benefits on land exiting the Conservation Reserve Program (CRP)?	Yes <input type="radio"/> or No <input type="radio"/>
High Quality, Productive Soils, Healthy Plant and Animal Communities: Special Environmental Efforts/Initiatives - Will the proposed project assist the producer to:	
6. a. Eradicate or control noxious or invasive species?	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Increase, improve or establish pollinator habitat?	Yes <input type="radio"/> or No <input type="radio"/>
6. c. Implement precision agricultural methods?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Properly dispose of animal carcasses?	Yes <input type="radio"/> or No <input type="radio"/>
6. e. Implement an Integrated Pest Management plan?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation – Will the proposed project assist the producer to:	
7. a. Reduce energy consumption on the agricultural operation?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Increase on-farm energy efficiency with more efficient equipment?	Yes <input type="radio"/> or No <input type="radio"/>

7. c. Assist in implementing energy conservation measures that reduce emissions from GHGs and air pollutants?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines - Conservation Implementation Additional Ranking Considerations - Will the proposed project result in:	
8. a. Implementation of all planned conservation practices within three years of contract obligation?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Improvement of existing conservation practices or conservation systems already in place at the time the application is accepted, or will complete an existing conservation system?	Yes <input type="radio"/> or No <input type="radio"/>
Does the applicant meet the following conditions:	
9. a. If the applicant has an existing EQIP contract, has it been, and is it now, on schedule and in full compliance?	Yes <input type="radio"/> or No <input type="radio"/>
9. b. Did the applicant successfully complete any past contract(s) in full compliance?	Yes <input type="radio"/> or No <input type="radio"/>
9. c. Is this the applicant's first EQIP application?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. 1. Will 3 or more SWAPA elements be treated through this EQIP contract?	Yes <input type="radio"/> or No <input type="radio"/>
2. 2. Will all contracted practices be management, vegetative or non-engineering type practices, or if engineering practices are included will the participant supply the engineering design certified by a licensed professional engineer?(This includes producer-selected TSP designs)	Yes <input type="radio"/> or No <input type="radio"/>
3. 3. Will practices be implemented to treat surface water quality concerns in a planning unit that is immediately adjacent to a 303d listed (category 4 or 5) waterbody, as shown on the WA DOE web-based map? (http://apps.ecy.wa.gov/wqawa/viewer.htm)	Yes <input type="radio"/> or No <input type="radio"/>
4. 4. Will the initial contract length be limited to 5 years or less?)	Yes <input type="radio"/> or No <input type="radio"/>
5. 5. Will contracted practices assist the producer in complying with AFO/CFO, Tribal or Forest Practices Act laws and regulations, or the Food Quality Protection Act?	Yes <input type="radio"/> or No <input type="radio"/>
6. Is applicant certified as Socially Disadvantaged, Beginning, or Limited Resource Farmer/Rancher?	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
Cropland – Dryland Application Category --- select all that apply	
43. 1. Cropland – Dryland Application Category Will conventional tillage be converted to direct seed, no-till, strip till, mulch till or will Residue Management be applied to increase residue retention?..... This may occur in the entire rotation or during portions of the rotation that are identified in the 328 practice standard “Conservation Crop Rotation” 100 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
44. 2. Cropland – Dryland Application Category..... Does the predominate soil in the proposed contract area have a “T” of 1, 2, or 3; or “I” of 86 or higher?The predominant soils are defined as soils that make up > 50 acres or > 1/3 of the field under consideration. 50 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
45. 3. Cropland – Dryland Application Category.....Will Sediment Basins or terraces be applied? 30 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
46. 4. Cropland – Dryland Application Category Will a buffer or a vegetative practice be applied to benefit surface water quality? Grant points if the application includes a buffer practice that will provide a water quality benefit. Cover crops, filter strips, field borders, grassed waterways, hedgerow plantings, contour grass strips, grass buffer strips, and riparian forest buffers are all examples of conservation buffers. Evaluation may be based on aerial photos, topographic maps, and applicant interview. 30 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
47. 5. Cropland – Dryland Application Category A Pest Management plan will be applied to address ground and surface water quality and air quality in dryland agriculture. Grant points to applications implementing an IPM plan. 25 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
48. 6. Cropland – Dryland Application Category..... Nutrient Management will be applied to improve soil quality, ground & surface water quality..... Grant points to applications containing eligible components listed in the Big Bend Cost list. 25 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
49. 7. Cropland – Dryland Application Category..... Will grass be established for wildlife habitat or will shrub steppe habitat be improved through native grass seeding and/or brush management on a	Yes <input type="radio"/> or No <input type="radio"/>

minimum of 5 acres? Grant points to applications containing practices or components listed under NRCS practice code 643-Restoration and Management of Rare and Declining Habitats or 314-Brush Management. 75 Point(s)	
50. 8. Cropland – Dryland Application Category..... Will a wildlife food plot be implemented on 5 to 10 acres? Grant points to applications containing practice 643-Restoration and Management of Rare and Declining Habitats. 35 Point(s)	Yes <input type="radio"/> or No <input type="radio"/>
